A brief introduction:

Professional trainers know that it can easily take five days to develop a new training course or workshop; time that isn't always readily available.

Trainers' Library® is the pioneering service from Glasstap that can cut that development time by up to 80%.

Membership gives you a licence to use a huge range of pre-tested training materials designed for face to face delivery, including teambuilding games, exercises, icebreakers, toolkits and more.

Our training material includes detailed trainers' notes, handouts and exercise briefs; in fact all the documents you need to run our interactive and innovative exercises successfully.

And it's easy to access too – simply download what you want when you want it; no waiting for the post or paying for things that might not suit your needs.

All this is available for one simple annual subscription, with:

- No price increases - ever! ¹
- No additional download fees.

www.trainerslibrary.com

Quality assured:

Our training material:

Is formatted in a consistent, user-friendly way.

Provides background information to help the trainer prepare for delivery and ensure key learning points are developed.

Usually includes handouts that can be downloaded in Word, making it easy to amend them to reflect your own look and feel.

Has been written and tested by professional trainers.

Trainers' Library® is endorsed by trainers worldwide – to see some of the feedback we've received, visit Trainers' Library® and click on 'Quality Assured'.

"It is a pleasure to do business with people who care about their customers. Joining Trainers' Library® is the best thing I've done since going into training."

Added value:

Members gain:

- Access to all new material added during the term of their membership.
- Free use of our Trainers' Talk forum and discounts on Trainers' Market purchases.

1 We guarantee not to increase your annual subscription (excluding vat) as long as your membership continues uninterrupted.
